Dear Parents and Guardians,

**Re: HoS Letter: End of Term One 2025-2026 – Daring to Do**

As Term One draws to a close, we celebrate more than just reaching the finish line. We celebrate the significant advancements our students have made across the board in academic progress, in cultivating a supportive culture of well-being, and in maximizing the many enrichment opportunities available. This term has been a period of sustained effort and impressive achievement, confirming our position as a leading international school committed to excellence.

A brief round-up of this half term can be found overleaf. You can also see many of these and more stories in [ISB Spotlight Term 1 25-26](#) and on our social media. These snapshots provide us with some idea of the positive culture we have at ISB. Throughout the term, we have been privileged to welcome esteemed visitors from the Ministry of Education, Diplomatic Corps, universities, and the business community. These visitors consistently refer to two of our greatest strengths: our students' exceptional attitude, focused approach to learning, and the tangible warmth and inclusive ethos of the entire ISB community.

Reinforcing this feedback, I am delighted to share the highly positive findings from the Council of International Schools (CIS) Preparatory Evaluation conducted in November. The CIS team identified numerous institutional strengths, validating the quality of education and care provided at ISB:

- Strategic Direction: Our guiding statements are clear, well-articulated, and effectively support strategic decision-making.
- Safety and Well-being: Safeguarding and child protection procedures are robust, widely understood, and fully implemented.
- Facilities: Our well-developed facilities, including common areas, enhance the learning experience academically and socially-emotionally.
- Continuum of Learning: Transitions between program levels are thoughtfully planned, supporting student well-being and a seamless progression across divisions.
- Teaching and Learning: We demonstrate high levels of teacher and student engagement across all areas, fueled by a passion for teaching and learning among our licensed, professional staff.
- Inclusivity: We have a strong commitment to inclusive education and differentiated instruction, supported by experienced and engaged teaching staff.
- Residential Services: Our Boarding House provides well-developed services with suitable safeguarding, well-being, and risk management provisions.

Further cementing our standing, we are proud to have been nominated for the TES International School Award for "Specialist Provider." Additionally, our Residential Services have been nominated by the Australian Boarding Schools Association (ABSA) for two highly prestigious honours: International School of the Year and Most Innovative Idea in a Boarding School.

These accolades affirm that we are performing exceptionally well, BUT our vision is to continuously strive for even greater excellence.

Aligned with the CIS evaluation, we are launching three strategic, whole-school development initiatives over the next 18 months. These initiatives will ensure that every part of ISB, from Primary through Secondary, is focused on advancing our mission.
